Sapienza, Rome · 2012

Experience

Eulerian — Team lead and senior technical account manager

Paris | 2019 — present

Since 2019, I have led cross-functional teams implementing Eulerian's solutions, written technical documentation, and tested and debugged new products and features. I manage a technical portfolio worth more than €2M and have cut client issue resolution time by half.

Wantrek — IT and marketing manager, co-founder

Rome | 2018 — 2020

A startup building digital solutions and web platforms. I led a team of developers and marketers to a 40% lift in user engagement, designed the platform's technical architecture, and built data-driven marketing strategies that increased lead generation by 35%.

Freelance

Rome | 2016 — 2019

Web development and SEO for small businesses: marketing campaigns that lifted online sales by 20%, and personalised strategies that improved customer retention by 30%.

Marketing Power

Rome | 2015 — 2016

Websites and Android applications, SEO and SEM.

Scipio

Paris | 2013 — 2015

Website and Android application development, on a work-study contract.

Selected independent projects

Verbris

React and TypeScript, shared client/server game logic, SQL and server-side score validation. AI-assisted development with Claude Code, guided by specifications, tests and code audits.

Arttrip

WordPress-to-Astro migration: 2,082 pages in four languages, redirects, Pagefind search and automated SEO checks that block a faulty release.

Cibamus

Hugo, multilingual content modelling, Recipe structured data and Google Tag Manager: making recipes discoverable across four languages.

Portfolio

Astro and TypeScript, localised routes, responsive interfaces and automated checks on the built HTML, complemented by Playwright browser tests.
